File Name: About.html

Description of Copy Text (Bio of site reasoning, myself, my specs)

Links on the Page: HomePage, About

User Interaction (Navigating only but hope to have a feature where visitors can share experiences and knowledge to other people around the world but also have a featured that is organized by location so patients in specific states that are legal can communicate collectively and explain experiences with their states legal medicine and should be verified patients.)

Graphical Elements/Images (Images of charts and graphics that explain and have Cannabis education, text, images of various forms of medicine, charts of terpenes, video links, demonstrations, etc

Color Specs:
Might add a Forest Green but for now I have Purple, slight Orange Black, White, and Gray.

Font Specs: top fonts Comic Neue, cursive, body font Barlow, sans-serif, italic

User Interaction (Navigating only)

Graphical Elements/Images (Images of charts and graphics that explain and have Cannabis education, home page should be more so vague but enough for someone to gain a perspective first glance but 2nd option is go completely minimallistic just text and a color scheme)

Color Specs:
Might add a Forest Green but so far Purple, slight Orange Black, White, and Gray.

Font Specs: Top fonts Comic Neue, cursive, Body font Barlow, sans-serif, italic
